

My Rainforest Trek

The Coati crossing

The coati eat other animals, bird eggs, mice, insects, fruit and seeds.

The Hourglass frog

The frog is so cute. She hide in the leave so she can eat. She sit still so she can catch to eat them.

The White faced monkey

The white faced monkey eat bird eggs, palm fruits, insects and spiders.

The Hanging bridge

I was passing the bridge and I see a howler monkey and the bridge was 50 feet.

The Humming bird

I see with my binoculars and i see a hummingbird. It was laying eggs. It was a little nest
