

MY RAINFOREST TREK

HANGING BRIDGE

I am really scared to go on the bridge. Huh? What is that?
Oh it is a howler monkey.

HERCULES BEETLE

I started to scream. It is bigger than your hand!!! It is black. I almost stepped on it. It was very cool!!!

HOURGLASS FROG

By sitting still the frog might catch a moth to eat.

COATI CROSSING

I just saw a coati. Coati eat snakes, insects and bird eggs.

BANANA PLANT AND FERNS

The Banana plant's leaves are long and wide. The ferns have bits of little leaves.
