

# Rainforest Trek

# Hercules Beetle

It finds food on the floor. It eats leaves and fruit. It is bigger than our hand!  
It eats dead wood.

# Longwing Butterfly

It look's like a heart. It eats nectar and pollen. The female lays eggs.

# Hanging bridge

I was so scared! It doesn't fall! It is my first time!  
I hope in the trees there are birds.

# Coati

Coatis eat fruit, seeds, birds, nuts, plants, and bird eggs.

# Spider Monkey

Spider Monkeys live in the trees. They hang from their tails. They eat fruit and eggs.

# Hummingbird

Put on your binoculars to see it! They plant their nests under the tree!
